

GARY W. ELLIS

Production Manager

Gary Ellis is Production Manager for AbsolutAire. In this role, he is responsible for manufacturing planning and operations management for the company's full range of product offerings. This includes overseeing and directing all production, which includes fabrication, assembly, piping, electrical, painting and shipping.

Gary was named Production Manager at AbsolutAire in 2007, following more than eight years of experience with the company in various production and supervisory roles. Prior to joining the company, he had previously worked at a number of Grand Rapids area metal fabrication and welding shops, including Benteler Automotive and the Environmental Technical Group.

Gary graduated from Comstock High School, in Comstock, Michigan, a suburb of Kalamazoo, after transferring from Obion County High School in Union City, Tennessee, when his family relocated to the area. His educational interests included shop technologies, art and photography.

Married since 1996 to his wife, Nancy, Gary's recreational interests include fishing, hunting, riding motorcycles and just relaxing at home with their three dogs. They reside in Delton, which is about 15 miles northeast of the AbsolutAire plant.
