

CASEY A. POTTS

Mechanical Engineering & Drafting

Casey Potts is a member of the Mechanical Engineering & Drafting group at AbsolutAire. In his position, he is responsible for assisting on unit design and product development, generating unit drawings, and providing production-engineering support.

Casey began his HVAC engineering support career with AbsolutAire in 2007, while pursuing his technical education. He had previously been employed in construction and manufacturing, with specific experience in carpentry, assembly, and installation of electrical and mechanical systems.

Casey earned an associate's degree in computer-aided design in 2007 from Kalamazoo Valley Community College (KVCC). While working at AbsolutAire, he has continued his studies toward earning a bachelor's degree in mechanical engineering.

Casey is married to his wife, Shannon, and they have a young son, Ethan. Casey enjoys all sorts of activities with family and friends, especially if they involve the outdoors. An avid fisherman and bow-hunter, he also enjoys playing sports such as softball, football, and beach volleyball.
